## Software Engineer, Full-Stack Developer (Vue.js & Node.js)

I am a Full-Stack Developer with a strong focus on frontend development, driven by a passion for continuous learning and problem-solving. I thrive in flexible, remote work environments that allow me to manage my time effectively and maintain high productivity. Currently, I work as a freelance Frontend Developer on Upwork while enhancing my remote freelancing skills through Udacity. I am deeply committed to web development and aim to build scalable, user-friendly applications that simplify everyday tasks and deliver real value to users.
